Re: Letter of Recommendation for Howell Contractors, Inc.

To Whom It May Concern,

I am Supervisor of the Greater Cincinnati Water Works (GCWW) Inspection Section of the Engineering Division. I have personally worked with Howell Contractors for over twenty-five years. I have worked with this contractor in the capacity of GCWW Construction Inspector, GCWW Assistant Supervisor of Inspection, and my current position of GCWW Supervisor of Inspection. I have a great deal of experience working with Howell Contractors.

Howell Contractors perform water main installation for the GCWW from simple subdivision work to complex CIP projects. Howell Contractors are also one of our contractors capable of installing pre-stressed concrete pipe which requires a highly specialized force of managers and labor staff to see to the successful installation of the product.

I can personally attest to a high degree of work ethic and integrity, from the company ownership all the way down to the labor force. Howell Contractors are a pleasure to work with and are very responsive to the GCWW and our customer's needs. They are a quality company that I highly recommend for work in your community.

If you have any questions, please feel free to contact me.

Sincerely,

Mark J. Niehe
Supervisor of GCWW Inspection
